

Eco-Schools is an international award programme that guides schools on their sustainable journey, providing a simple framework to help make sustainability an integral part of school life. Eco-Schools can help enhance the curriculum and get the whole school united behind something important.

Our mission is to help make our school sustainable and to bring about behaviour change in young people and those connected to them so that good habits learned here in school are followed through into homes and communities.

What's more, by addressing environmental issues in school and reducing waste, we'll save money, which can be reinvested elsewhere.

Children engage in all sorts of activities, such as Switch off Fortnight, Recycling of paper, card and plastics, Growing our own to name a few. If you would like to help us in our journey to become Eco-Champions, please contact Mrs Nottingham.
